GREE

GREE PRO Air Purifier provides protection against Coronavirus (COVID-19) and other viruses. The elimination rate of the coronavirus is ≤99.99% and effectively blocks the virus transmission by air, it also removes all kinds of particulate matters.

Model	Air Purifier		KXJFA300-B01
Suitable area		m^2	21~36
Power Input		W	58
Rated Voltage /Frequency		V /Hz	220-230
Standby Power Consumption		W	<2
Particular matters CADR		m^3/h	302
Particular matters CCM			F4
Formaldehyde CADR		m^3/h	\
Formaldehyde CCM			F4
Maximum Power Input		W	1940
Noise		dB (A)	34-59dB(A)
Outline Dimension	WxHxD	mm	423x1273x370
Package Dimension	WxHxD	mm	493x553x1408
Main Tecnology			Efficient plasma filtration and collaborative heat treatment technology
Main Function			Prevent coronavirus in the air and block the transmission of the virus;
			Remove bioareosol: remove 50/ cm3 aerosol particles per minute on average
			Remove particulate matters: remove 10 million biological particles per minute on average.

High speed
Reduce the virus in the air quickly; noise is 58.2dB (A)

Mid speed
Reduce the virus and clean the air

Low speed
Under low mode, the noise is as low as 33.4dB (A)

Auto
Adjust the notch automatically according to the concentration of indoor PM2.5

Price: ~~€3495~~ €2995
