An essential & efficient home product

- High humidity levels can lead to bacterial colonies growth on damp walls in your home. Airborne microbes can cause respiratory infections and allergies, particularly in vulnerable groups, like children and the elderly.
- High humidity also results in the formation of mold in bathrooms, on ceilings and walls, unpleasant odours and damage wooden floors and furniture.

1. INTRODUCTION

Concise intelligent control panel

- Light transmission display of membrane
- Clear functional partition
- Convenient touch button operation

2. PRODUCT FEATURES

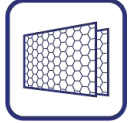

Wifi long-distance intelligent control

Download the Gree+ App to operate the unit at anytime from anywhere.

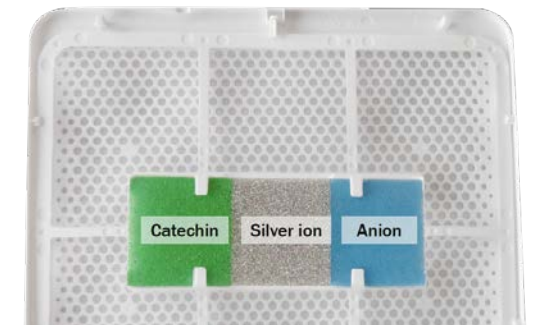

2. PRODUCT FEATURES

LIFE
WORTH
LIVING.

Healthy filter optional

Adopt healthy filters according to different demands, eco-friendly and easy operation.

2. PRODUCT FEATURES

LIFE
WORTH
LIVING.

Voice control

Intelligently operate your unit just by interacting with Google Assistant or Alexa.

2. PRODUCT FEATURES

**LIFE
WORTH
LIVING.**

Easy disassembly

With door switch, grille is easy for disassembly and cleaning.

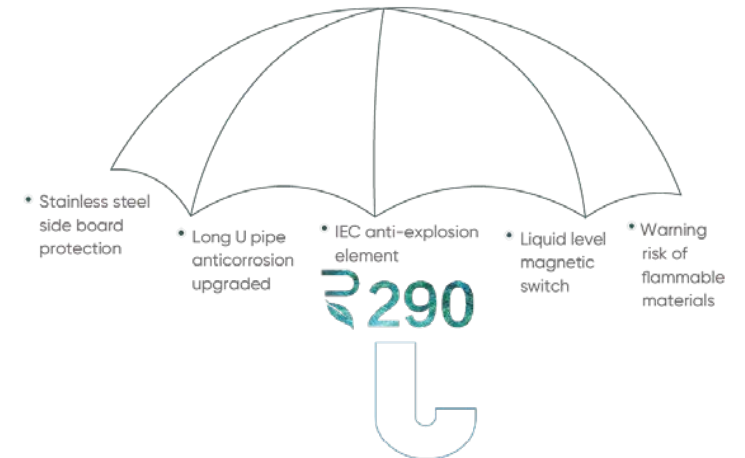

2. PRODUCT FEATURES

R290

R290 safety protection

Using R290 as a refrigerant is ozone-friendly and has no direct effect on the greenhouse effect.

2. PRODUCT FEATURES

LIFE
WORTH
LIVING.

36dB ultra-low noise

Quiet centrifugal blade matching with streamline air duct for ultra-low noise emissions.

2. PRODUCT FEATURES

LIFE
WORTH
LIVING.

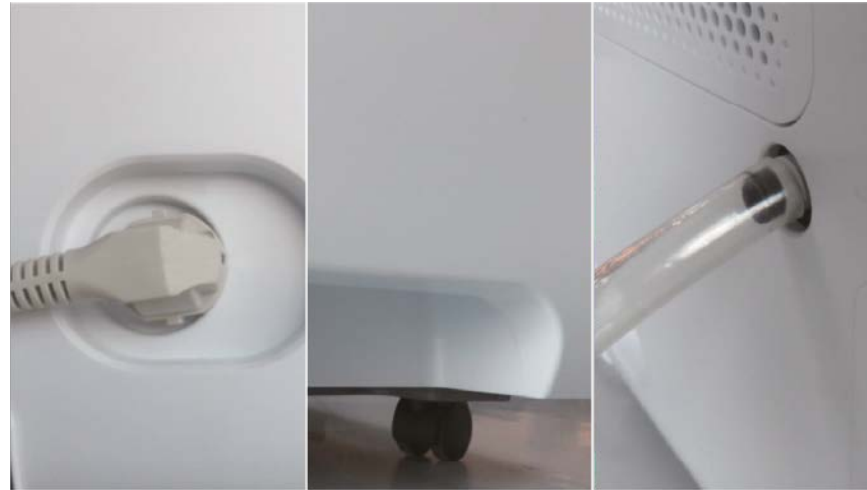

UV sterilization

Built-in ultraviolet lamp sanitization kills bacteria to make your home air as fresh as the forest.

2. PRODUCT FEATURES

Humanized detail design

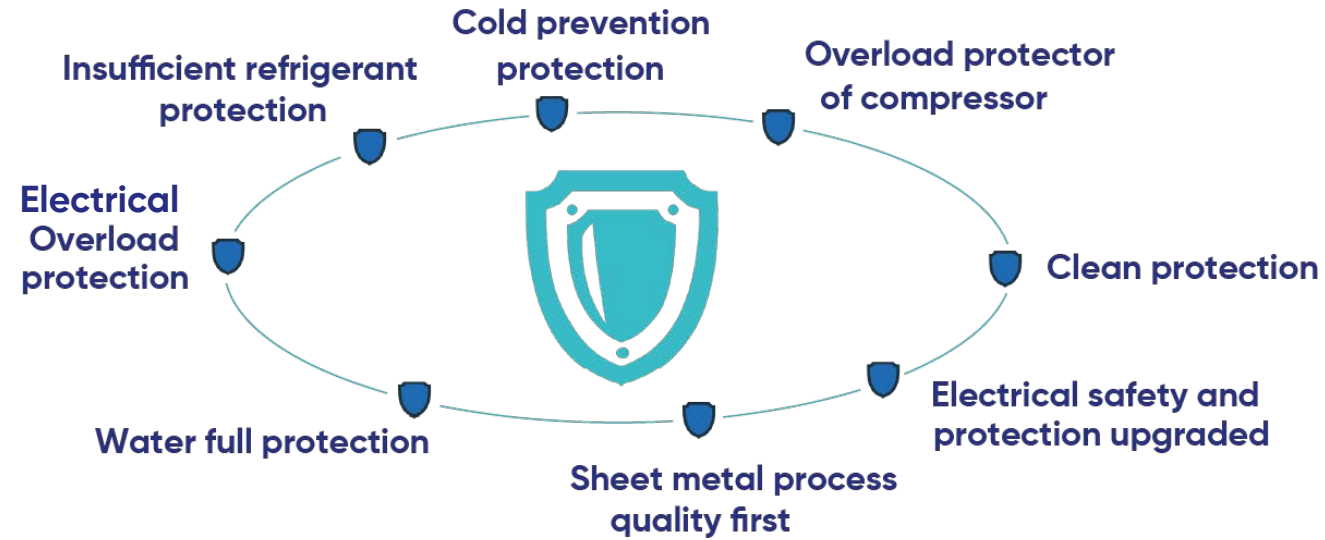

Storage design
for power cord

Universal
castors

Continuous
drainage
functionality

2. PRODUCT FEATURES

Multiple protection for high safety
