GREE VERTY DEHUMIDIFIER

Intelligence Dehumidification &
Triple Purification

**LIFE
WORTH
LIVING.**

INTRODUCTION

High humidity levels can lead to bacterial colonies growth on damp walls in your home. Airborne microbes can cause respiratory infections and allergies, particularly in vulnerable groups, like children and the elderly.

High humidity also results in the formation of mold in bathrooms, on ceilings and walls, unpleasant odors and damage wooden floors and furniture.

GREE VERTY DEHUMIDIFIERS

CAN HELP YOU TO:

- 🌿 Improve your health
- 🌿 Dry your clothes inside the house
- 🌿 Prevent Damp and Dust
- 🌿 Dehumidify and purify the air
- 🌿 Reduce heating costs

PRICE: 30Litres: €395

PRODUCT FEATURES

Light and touch sound turn off

Light and touch sound can be turned off to ensure comfortable sleep.

Timer

Verty can be preset to start up or shut down 24 hours in advance.

Automatic defrost

If the evaporator is frosted, Verty can defrost automatically and continue to run.

Self-diagnose

In case of fault, Verty will self-diagnose, display the fault code, and offer solutions to users.

Reminder to clean the filter screen

When the filter screens need to be cleaned, Verty will automatically remind the user.

OTHER PRODUCT FEATURES

The large touch screen with soft LED light is clear to see day and night, the buttons are sensitive and easy to control.

Large capacity visible water tank of 5.5L, with a clear look of remaining water; the top cover can be removed easily for the convenience of water tank cleaning.

Frosted top cover, exquisite texture.

Universal wheels, convenient for movement.

Smooth body for easy cleaning; Recessed handles for easy moving.

External drain hose, continuous drainage is available.

TRIPLE PURIFICATION

1 Air filter screen

- First protection: The washable and durable filter screen can remove coarse particles.

Two-in-one composite filter

It combines the HEPA filter with the activated carbon filter, which can effectively filtrate more than 95% of the fine particles in the air and absorb various harmful gas and peculiar smell.

SAFE LIFE GUARDED BY VERTY

Tipping switch

Verty has a built-in sensor to monitor the vertical state of the machine in real time. Once it topples, it will stop running and give an alarm to avoid damaging the core components.

Child lock

User can long-press the "Light" button to enable/disable the child lock function. This is to prevent children or pets from operating the machine by mistake.

Shutdown in case of overflow

The unit has a magnetic sensor at the top of the water tank that can monitor the water level in real time. When the water tank is full, the unit will give an alarm and shut down in time to avoid overflow.

Fire prevention

Multiple protections with Verty, such as DC motor under-voltage/overheating/over-current protection, compressor overload protection and the all-metal electrical box, ensuring safe and stable operation.

HEALTHY LIFE STARTS FROM VERTY

When the air quality is fresh, the light is green, and when it gets worse, it turns yellow and red. The air quality and purification effect can be seen easily, so there is no need to worry about the invisible polluted air that is harmful to health.

39dB

Verty is very quiet when running and the sound of the unit the highest fan speed is only 39dB, which is about the sound level of our daily conversation. Even when drying clothes at night, there is no need to worry about noise and you can have a quiet and comfortable sleep.

FRESH

NORMAL

BAD

HEALTHY LIFE STARTS FROM VERTY

Ion Purification

Through high-voltage electrode discharge, Verty can ionize the air and generate a large number of positive and negative ion groups H^+ and O_2^- , forming an army of plasma with a concentration of up to $3 \times 10^{16} \text{ n/cm}^3$. The plasma sterilizes the air and finally generates harmless substances such as water and restores the air to be just as fresh as that in the forest.

Moisturize the skin and protect the clothes

High concentration of cold plasma can form a water retaining film on the surface of skin, keeping the skin soft, smooth and moist. There's no need to worry about dryness. The positive and negative ion groups penetrate into the fabric of clothes, eliminate mites, remove mildew, oil fumes and other unpleasant smell, creating the effect of sun drying for clothes.

Safe and secure

The cold plasma high-voltage emitter meets the standard of accessible live parts, with no electric shock risk.

STRONG TECHNOLOGY, POWERFUL DEHUMIDIFICATION

High quality rotary compressor has higher efficiency and lower noise when compared with traditional piston compressors. Besides, it is more reliable and durable. It can provide users with quiet and efficient dehumidification.

- The dehumidification capacity reaches 12L / D
- Applicable area: 36 - 42 m²
- Stable operation at 1 C - 40 C

The motor is equipped with DC control module for more accurate adjustment and faster response. It is also equipped with brushless permanent magnet rotor, with little heat loss and no need for heat dissipation. It is energy saving and quiet.

THREE FAN SPEEDS, MEET ALL KINDS OF NEEDS

Low fan speed

Very at low fan speed can bring you a dry and quiet space when you sleep at night.

Medium fan speed

Very at medium fan speed can meet your needs of dehumidification in daily life.

High fan speed

Very at high fan speed can dry clothes so fast that clothes washed at night will be dry in the morning, so there is no need to worry about wet weather.

WIFI INTELLIGENT INTERCONNECTION, IMMEDIATE DEHUMIDIFICATION

Verty can be connected to WiFi to realize intelligent interconnection. Even if it is thousands of miles away, you can easily switch on and off the unit, adjust the operation and timing, and check the real-time status through the app in your mobile phone, so Verty can give dryness and care for the elderly, children and pets at any time.

ENERGY SAVING, FAR ABOVE CLASS 1 ENERGY EFFICIENCY

By adopting a high-efficiency condensing system, the energy efficiency ratio of Verty is up to 2.88, which is 20.0% higher than class 1 energy efficiency standard of Taiwan. With only 1 kWh, the unit can extract as much as 5 bottles of water (at 27 °C, RH60%).

PRODUCT SPECIFICATIONS

Model		Dehumidifier	GDN30BH-K5EBA1A	GDN30BH-K5EBA1BB	GDN30BH-K5EBA1BG
